

Go bats with BESEROVIA. This opportunity to join the Psycho Brigade is Pandemonium Publication #555 and it is edited and published by Rod Walker, 4069 Jackdaw St., San Diego CA 92103. BESEROVIA is naught but a move-sheet for 1973IK, which appears in all its Ickey splendor in EREHWON. It is sent to players and stand-bys for the game. Others who are masochistic enough to collect everything in sight may purchase copies at \$1.00 for 10 copies, sent in bundles of 2 or more (two's a bundle??).

WINTER 1904 ADJUSTMENTS are due on Monday, 14 October 1974.

1. Walter Blank is now at RFD #1, Box 181, Ontario WI 54651.
2. The Austrian and Russian players correctly noted that their orders in the Turkish area last season were a stand-off.
3. Arn Vagts has proposed a draw, effective Spring 1905. Votes on this proposal are due with the Winter 1904 adjustments (or on that deadline if you have nothing else to send in. Failure to vote counts as a missed deadline, so vote. Failure to vote is not counted as a negative vote. A unanimous "yes" vote from all players voting means this game is drawn. See HR 29. The "25-unit" rule will not apply here; the GM does not feel the game is necessarily drawn at this time. It might be, but there are too many ifs in the alliance pattern to tell.

4. Have fun, Eric.
